PROFESSIONAL SUMMARY

Aspiring Full-Stack Web Developer and Computer Science & Technology (CST) student with hands-on experience building responsive web applications using JavaScript, TypeScript, React, Next.js, Node.js, Express.js, and MongoDB. Passionate about creating accessible, user-friendly products and solving practical problems through clean, maintainable code. Actively strengthening full-stack development skills through project-based learning.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS
Backend	Node.js, Express.js, REST APIs
Database & Auth	MongoDB, SQL fundamentals, Better Auth, Google OAuth fundamentals
Tools	Git, GitHub, VS Code, npm, Postman

SELECTED PROJECTS

Bazar Dor — Bengali Market Price Tracking Web Application

Tech: Next.js · React · Tailwind CSS · REST API

- Built a Bengali-focused interface for exploring market prices, products, and categories.
- Practiced API integration, dynamic data rendering, and responsive UI development with localized labels and units.

FitLog — Fitness & Workout Tracking Web Application

Tech: Next.js · React · Tailwind CSS · REST API

- Developed a fitness application interface focused on workout plans and tracking user routines.
- Worked on reusable UI components, layout consistency, and API-driven content.

Bangla Bulletin — News Web Application

Tech: Next.js · React · REST API · Better Auth

- Created dynamic news article pages using route parameters and API data.
- Practiced authentication-related UI and profile workflows while learning the Next.js App Router.

Wanderlust — Full-Stack Web Project (In Progress)

Tech: Next.js · Express.js · MongoDB · Tailwind CSS

- Building a full-stack project connecting a Next.js frontend with an Express backend and MongoDB.
- Developing practical experience with API routes, database-backed features, and full-stack integration.

EDUCATION

Diploma in Engineering — Computer Science & Technology (CST)
Greenland Polytechnic Institute

Currently studying
7th Semester · Oct 2026

ADDITIONAL INFORMATION

Currently Learning: Advanced React patterns, Next.js App Router, API integration, authentication, and production-ready full-stack development.
Career Focus: Junior Frontend Developer · Junior Full-Stack Developer · MERN Stack Developer
Languages: Bengali (Native), English (Professional working proficiency)
Availability: Open to internship and junior developer opportunities.
